

Skill Arena - Phase 1 Part 9

Sustainability, Governance, Compliance & Growth Strategy Specification

Chapter 12 - Sustainability Philosophy

Skill Arena must be designed to survive long term. The platform shall prioritize: - Sustainability - Fairness - Security - Transparency - Growth Short-term profit must never threaten long-term survival.

Revenue Model

Primary Revenue Sources: - PvP Platform Fees - Tournament Fees - Premium Season Passes - Cosmetic Sales - Sponsored Events - Future Premium Features Revenue streams should be diversified.

Reward Sustainability

Rewards must scale with: - Platform Growth - Treasury Size - Active Player Base - Revenue Generation No reward may be promised without funding.

Treasury Backing Rules

Every reward system must be treasury backed. Examples: - Tournament Rewards - Championship Rewards - Seasonal Rewards - House Challenge Rewards Treasury limits override reward generation.

Growth Strategy

Growth phases: Phase 1: Founding Community Phase 2: Regional Growth Phase 3: International Expansion Phase 4: Multi-Game Ecosystem Growth should be controlled and sustainable.

Player Retention Strategy

Retention supported through: - Seasons - Achievements - Legacy Progression - Tournaments - House Challenges - Cosmetics Players should always have future goals.

Governance Principles

Governance must ensure: - Transparency - Accountability - Auditability - Sustainability Major changes should be documented.

Business Continuity

Prepare for: - System Failures - Payment Delays - Security Incidents - Operational Disruptions Business continuity plans required.

Compliance Philosophy

Compliance requirements may include: - Financial Compliance - Data Protection - Consumer Protection - Anti-Fraud Controls Compliance obligations vary by jurisdiction.

KYC Framework

Know Your Customer procedures may require: - Identity Verification - Address Verification - Age Verification - Enhanced Verification for higher-risk accounts Verification levels may vary.

AML Framework

Anti-Money Laundering controls monitor: - Suspicious Deposits - Suspicious Withdrawals - Unusual Behaviour - High-Risk Activity Suspicious activity may trigger review.

Restricted Jurisdictions

Platform may restrict access based on: - Regulatory Requirements - Legal Restrictions - Compliance Risk Country controls should be configurable.

Investor Reporting Principles

Reporting may include: - Revenue Metrics - User Growth - Treasury Health - Liability Exposure - Financial Performance Reporting must be accurate and auditable.

Operational Monitoring

Monitor: - User Activity - Treasury Activity - Security Events - Platform Health - Revenue Performance Anomalies generate alerts.

Disaster Recovery

Maintain: - Backups - Recovery Procedures - Incident Plans - Restoration Processes Critical systems must be recoverable.

International Expansion

Expansion strategy should support: - Multiple Currencies - Multiple Languages - Regional Compliance - Regional Payment Providers Platform architecture must support global growth.

Multi-Game Ecosystem Governance

All future games must comply with: - Constitution - Security Rules - Treasury Rules - Replay Rules - Audit Rules Platform standards apply to all games.

Long-Term Vision

Build a permanent skill-gaming ecosystem. Maze Arena is Game #1. Future games inherit: - Wallets - Seasons - Legacy - Tournaments - Security - Treasury The ecosystem should remain viable for decades.
