

Skill Arena - Phase 2 Part 1

Platform Navigation, User Journey & Information Architecture

Purpose

This document defines how users move through the Skill Arena ecosystem. The objective is to create a scalable structure capable of supporting multiple games, millions of players and future platform expansion without redesigning navigation.

Platform Areas

The platform consists of three primary areas: 1. Public Area 2. Player Area 3. Administration Area

Public Area

Accessible without login. Contains: - Landing Page - About - Games - Tournaments - Leaderboards - Login - Register - Help Center

Player Area

Accessible after login. Contains: - Dashboard - Play - House Challenges - Tournaments - Leaderboards - Wallet - Profile - Settings - Notifications

Administration Area

Accessible only to authorized staff. Contains: - CRM - Treasury - User Management - Security Center - Dispute Resolution - Replay Review - Reports - Compliance

Desktop Navigation

Recommended Left Sidebar: Home Play House Challenges Tournaments Leaderboards Wallet Profile Settings Designed for future multi-game expansion.

Mobile Navigation

Recommended Bottom Navigation: Home Play House Wallet Profile Optimized for mobile devices.

New User Journey

Landing Page → Register → Verify Email → Create Profile → Receive Demo Tokens → Play Demo Mode → Learn Platform → Deposit → Play Live

Returning User Journey

Login → Dashboard → Review Notifications → Select Activity → Join Match

Live Player Journey

Dashboard → Play → Matchmaking → Match → Results → Replay → Dashboard

House Challenge Journey

Dashboard → House Challenges → Select Tier → Confirm Entry → Play Challenge → Results → Replay → Reputation Update

Tournament Journey

Dashboard → Tournament Center → Register → Qualification Check → Tournament Match → Results → Rewards

Wallet Journey

Dashboard → Wallet → Deposit → Play → Withdraw → Transaction History

Information Architecture

The platform hierarchy: Platform ■■■■ Dashboard ■■■■ Games ■ ■■■■ Maze Arena ■ ■■■■ Memory Arena ■ ■■■■ Logic Arena ■ ■■■■ Pattern Arena ■ ■■■■ Future Games ■■■■ House Challenges ■■■■ Tournaments ■■■■ Leaderboards ■■■■ Wallet ■■■■ Profile ■■■■ Settings

Scalability Requirements

Navigation must support: - Additional Games - Additional Leagues - Additional Tournaments - Future Mobile Applications - International Expansion Without requiring major redesign.

Design Philosophy

Navigation should be: - Simple - Predictable - Scalable - Mobile Friendly - Future Proof Users should always reach any major feature within three interactions.
