

Skill Arena - Phase 3 Master Overview

Treasury, Financial Infrastructure, Compliance & Risk Architecture

Phase 3 Purpose

Define the complete financial backbone of Skill Arena including treasury controls, wallets, ledgers, compliance, risk management and reporting.

Primary Objective

Ensure every token, reward, reserve and liability is fully auditable, traceable and financially backed.

Financial Philosophy

Every token must have an owner. Every balance must reconcile. Every liability must be covered by reserves.

Document 1

Treasury, Wallet & Ledger Architecture. Defines reserves, wallet structures, double-entry accounting and treasury foundations.

Document 2

Database Schema & Financial Data Architecture. Defines tables, relationships, transaction models, ledger records and audit storage.

Document 3

Reconciliation Engine, Solvency Monitoring & Treasury Health Framework. Defines reserve validation, solvency monitoring and treasury health scoring.

Document 4

Payment Provider Integration, AML Controls & Financial Compliance. Defines deposits, withdrawals, provider integrations and compliance workflows.

Document 5

Treasury Operations Center, Dashboards & Reporting Framework. Defines executive visibility, reporting, forecasting and treasury monitoring.

Document 6

Fraud Detection, Risk Management, Dispute Resolution & Investigations. Defines fraud prevention, risk scoring and dispute workflows.

Core Financial Systems

Treasury Engine, Wallet Engine, Ledger Engine, Reconciliation Engine, Compliance Engine, Reporting Engine and Risk Engine.

Reserve Architecture

Player Reserve, Revenue Reserve, Season Reserve, Championship Reserve, Jackpot Reserve and Emergency Reserve.

Compliance Architecture

KYC, AML, transaction monitoring, risk management and audit support.

Operational Visibility

Executive dashboards, treasury dashboards, risk dashboards and compliance dashboards.

Security Principles

All financial calculations server-side. Client Trust Level = Zero. Full auditability of all financial actions.

Expected Outcome

Provide a complete blueprint for implementing a scalable, compliant and financially secure gaming ecosystem.

Transition To Phase 4

Phase 4 focuses on Security, Anti-Cheat, Infrastructure Protection, Authentication, Fraud Prevention and Platform Defense.
