

Skill Arena - Phase 3 Document 5

Treasury Operations Center, Financial Dashboards, Reporting Engine & Executive Monitoring Framework

Document Purpose

Define the operational command center used to monitor treasury health, financial performance, liabilities, reserves and business metrics.

Business Objective

Provide executives, finance teams and operators with real-time visibility into the financial condition of the platform.

Treasury Operations Center

Centralized dashboard for monitoring all treasury activity, reserves, liabilities and financial performance.

Primary Dashboard Groups

Executive Dashboard, Treasury Dashboard, Liability Dashboard, Revenue Dashboard, Compliance Dashboard and Risk Dashboard.

Executive Dashboard

High-level overview of platform health, growth, solvency, revenue and treasury status.

Key Executive Metrics

Active Players, Deposits, Withdrawals, Revenue, Treasury Health Score, Reserve Coverage and Solvency Ratio.

Treasury Dashboard

Displays reserve balances, treasury movements, reserve utilization and treasury alerts.

Reserve Monitoring

Player Reserve, Revenue Reserve, Season Reserve, Championship Reserve, Jackpot Reserve and Emergency Reserve.

Liability Dashboard

Tracks wallet liabilities, pending rewards, pending withdrawals and future obligations.

Revenue Dashboard

Displays platform fees, tournament revenue, premium sales and other monetization metrics.

Compliance Dashboard

Tracks KYC completion rates, AML alerts, investigations and compliance status.

Risk Dashboard

Displays fraud risk scores, treasury anomalies, payment provider risks and operational threats.

Financial Reporting Engine

Generates operational, financial, compliance and treasury reports.

Report Categories

Daily Reports, Weekly Reports, Monthly Reports, Quarterly Reports and Annual Reports.

Treasury Health Monitoring

Continuously evaluates reserve coverage, liquidity and operational sustainability.

Executive Alerts

Generated for solvency risks, reserve shortfalls, reconciliation failures and unusual financial events.

Historical Analytics

Track treasury trends, revenue growth, liability growth and reserve performance over time.

Forecasting Engine

Projects future liabilities, reserve requirements and revenue performance.

Treasury Audit Views

Provides auditors with detailed visibility into balances, movements and reconciliations.

Operational Monitoring

Monitors payment providers, treasury services, reporting services and financial infrastructure.

Data Sources

Treasury Engine, Wallet Engine, Ledger Engine, Compliance Engine, Tournament Systems and Reporting Systems.

Security Requirements

Executive and treasury dashboards restricted by role-based permissions and elevated authentication.

Audit Requirements

Every dashboard action, report generation and administrative change permanently logged.

Performance Requirements

Dashboards update in near real-time with support for large-scale operations.

Acceptance Criteria

Finance and executive teams can monitor, analyze and manage platform finances from a unified operational center.
