

Phase 9 - Document 4

Maze Arena UX, Gameplay and Replay Experience

Purpose

Define the complete Maze Arena player experience including gameplay, PvP, house challenges and replays.

Maze Arena Structure

Maze Arena contains Home, Casual, Ranked, House Challenges, Boss Events, Replays, Statistics and Leaderboards.

Maze Arena Home

Displays current league, rank, statistics, recent matches and quick access to all gameplay modes.

Statistics

Matches Played, Win Rate, Current Streak, Best Time, Average Time, League Progress and Trust Score.

Ranked Mode

Primary competitive mode with league progression and rewards.

Casual Mode

Practice mode with no rank impact.

Dual Maze PvP System

Players see their own maze fully visible while the opponent maze is blurred or pixelated.

Opponent Visibility

Only approximate progress, position and estimated moves remaining are shown. Exact route and decisions remain hidden.

Moves Remaining Indicator

Displays estimated remaining moves to increase competitive tension.

Competitive Alerts

Warnings such as Opponent Closing In and Opponent Near Finish.

House Challenges

Bronze, Silver, Gold, Platinum, Elite and Legend challenge tiers.

Boss Events

Special premium events with large rewards, higher difficulty and limited attempts.

Gameplay HUD

Lives, Difficulty, Replay Status and Pause controls only. Minimal clutter.

Victory Screen

Completion time, rewards, rank changes and replay access.

Defeat Screen

Failure reason, retry options and replay access.

Replay Center

My Replays, Saved Replays, Shared Replays and Challenge Reviews.

Replay Viewer

Timeline, route analysis, optimal route comparison and heatmaps.

Leaderboards

Global, Country, League, Season and All-Time rankings.

Mobile Experience

Simplified gameplay layout optimized for touch devices.

Success Criteria

Players can start a match quickly, understand the interface instantly and review performance through replays.
