

Phase 9 - Document 5

Wallet, Treasury and Reward Experience

Purpose

Define the complete financial user experience including balances, rewards, deposits and withdrawals.

Core Philosophy

The wallet must feel transparent, trustworthy and professional rather than gambling-focused.

Wallet Overview

Displays available balance, pending rewards, pending withdrawals and lifetime earnings.

Wallet Navigation

Overview, Deposit, Withdraw, Rewards, Transactions, Treasury Status and Security.

Transaction History

Every transaction includes date, amount, type, reference and status.

Deposit Experience

Fast, secure deposits with country-aware payment methods.

Deposit Methods

Support EFT, Instant EFT, Cards, PayFast, Ozow and future payment providers.

Withdrawal Experience

Simple withdrawal workflow with verification, review and processing stages.

Withdrawal Statuses

Pending, Processing, Approved, Completed and Rejected.

Reward Center

Daily rewards, challenge rewards, season rewards, tournament rewards and boss event rewards.

Achievement Rewards

Rewards tied to milestones such as wins, leagues and achievements.

Treasury Transparency

Displays treasury health, coverage confidence and reward availability indicators.

Security Center

MFA, trusted devices, recent logins and security notifications.

Financial Notifications

Deposit completed, withdrawal approved and reward available notifications.

Anti-Fraud Integration

Trust score, device checks, verification checks and risk analysis before withdrawals.

Mobile Wallet

Balance-first mobile experience optimized for quick actions.

Future Expansion

Marketplace purchases, subscriptions, gift cards, clan treasuries and merchandise.

Success Criteria

Users trust the platform financially and can manage their funds easily.
